## ADDITIONAL INFORMATION

**Life Cycle :**  
These plugs must be disposed of and replaced after each wearing.

**Storage Information :**  
All earplugs should be stored before and between usages in a way that protects them from dirt, grease, and other contaminants.

**Care Instruction :**  
Disposable earplugs are made of either TPE (Thermoplastic elastomers) or polyurethane foam. Washing and cleaning of disposable earplugs are not recommended. These plugs must be disposed of and replaced after each wearing. Excessive moisture reduces the attenuation and slows down the foam recovery which may lead to improper fit.
