

**GENERAL DATA**

**Division :** Fall Protection  
**Family :** Fall Protection  
**Range :** Harness  
**Brand formerly known as :** MILLER  
**Business Countries**  
 EMEA  
 United Kingdom  
 Middle East  
**Activity Domains :**  
 Homeland defense • Army - Defence

**Product Use :**

Rope Access and Rescue Harness with automatic fixing buckles - Size S/M. The ROPAX harness is ideal for industrial rope access, rescue and the special forces. It can be used in conjunction with a climber's seat and an ascender (correctly positioned by using the detachable front webbing sling)

**PRODUCT ADVANTAGES**
**Feature :**

3-point full body harness with dorsal D-ring, sternal and ventral anchorage points, 19mm wide comfort waist belt with 2 side D-rings for work positioning and tool loops; front webbing sling for ascender and padded leg straps with clear 'Left' and 'Right' labeling and automatic fixing buckles. A new triangular suspension design spreads the pressure across 4 points rather than 2.

**Benefit :**

**Enhanced Ergonomics and Increased User Comfort :** New Triangular Suspension position splits the forces between the leg straps and the waist belt (across 4 points of pressure) rather than being concentrated on the legs, thus reducing the risks of suspension trauma. The V form of the shoulder straps positions the straps away from the neck to avoid any irritation due to the webbing rubbing.

**Maximised Productivity :** A detachable webbing sling on the chest straps positions the ascender correctly in a vertical position to facilitate ascension.

**Ease of Use and Fit :** The leg straps and anchorage points are clearly identified. The automatic fixing buckles allow for the harness to be fitted quickly and easily.

**Optimum Abrasion and Chemical Resistance :** The black polyester webbing and stainless steel components offer optimum durability.

**Adaptability :** An attachment for a climber's seat makes the harness suitable for multi-application scenarios.

**Lightweight :** Only 1.6kg

## TECHNICAL DESCRIPTION

### Dorsal D-Ring

**D-Ring Information :**  
BENT BUCKLE

**Raw Material :**  
Aluminium alloy

**Dimensions :**  
60x64x7mm

**Breaking Strength :**  
2300 daN

### Front D-Rings

**Raw Material :**  
Aluminium alloy

**Breaking Strength :**  
2300 daN

### Ventral Anchorage point

**Description :**  
RING

**Raw Material :**  
Stainless Steel

**Dimensions :**  
Øwire 8mm - Øint 49mm

**Breaking Strength :**  
3000 daN

### Adjustement Buckles

**Raw Material :**  
aluminium alloy

**Breaking Strength :**  
900 daN

### Belt

**Side D-Rings :**  
Aluminium alloy

**Dimensions :**  
60x64x7mm

### Padding

**Material :**  
3D comfort padding in polyester, with knitted mesh

### General Information

**Weight (kg) :**  
1,6 Kg

**Size :**  
S/M

**Complementary Information :**  
Screw gate Karabiner  
Opening 24mm  
Raw material: Aluminium alloy  
Breaking strength: 3000 daN
