## Characteristics

100% Kevlar® glove.  
Grey nitrile coating at the palm.  
Gauge 10: medium.

## Advantages

### COMFORT

The aramid fibre ensures excellent comfort and good hand contact. The knitting technique helps to obtain a glove that conforms snugly to the hand and good dexterity. The glove offers maximum comfort and added sturdiness.

The glove's coating offers an improved grasp of objects.  
The glove's ventilated back optimises its breathability.

### RESISTANCE

Kevlar® offers outstanding protection against cuts.  
The nitrile coating at the palm and fingertips provides outstanding abrasion resistance and impermeability to oils.

### HYGIENE

Its grey colour makes the glove more soilproof, thus ensuring a longer last.
