

ARACUT® GRIP

Characteristics

Knitted Kevlar® glove, 3 yarns.
Blue PVC dots on the palm.
Gauge 10.
Length : 25 cm.

Advantages

Comfort

The knitting technique helps to make a glove that conforms closely to the hand, with good dexterity.
The glove's comfort is optimal with added sturdiness.

Resistance

The Kevlar® fibre offers excellent cutting resistance and protection against thermal hazards in a dry atmosphere.
The PVC patterned dots ensure greater abrasion resistance and a better grip.

Technical specifications and norms

European directive :
89/686/CEE

Norms :
EN 420-03 ; EN 388-03

EC type attestation :
0075/797/162/05/08/0134

Quality Assurance

Certification number :

Marking :
CE SPERIAN
