

## JUNKYARD DOG

### Characteristics

100% Kevlar® knitted glove. Gauge 7.  
Cowhide split leather reinforcement on palm and fingers.  
Length : 26 cm.

### Advantages

#### Comfort

The knitting technique helps to obtain a glove that conforms snugly to the hand and good dexterity. The glove offers maximum comfort and added sturdiness.

The glove's thickness (gauge 7) helps to absorb shocks.

#### Resistance

Kevlar® offers excellent cutting and thermal resistance in a dry environment.

The cowhide split leather reinforcement at the palm strengthens the glove's mechanical protection.

### Technical specifications and norms

European directive :  
89/686/CEE

Norms :  
EN 420-03 ; EN 388-03

EC type attestation :  
0075/797/162/06/08/0068
