

WINTER PROOF DRIVER

Characteristics

Water repellent cowhide grain leather glove.
US assembly, straight thumb, cuff type.
Brushed fleece lining.
Elasticated at the back.

Advantages

COMFORT

The leather has been enriched by a special tanning process to give the glove superior water repellent properties.
The lining increases the glove's comfort and heat insulation. Elasticated at the wrist, the glove offers added support.
The winged thumb makes the glove more anatomical for greater ease of use.
The water repellent treatment enables the glove to be used in damp environments.

RESISTANCE

Cowhide leather provides good mechanical resistance.
Its US assembly ensures a longer life while reducing the number of seams.
