

DEER FIT

Characteristics

Yellow water-repellent deerskin gloves.
 Gunn cut, sewn-on thumb.
 Palm in grain and back on flesh side.
 Fully Thinsulate® lined.
 Elastic strip on the back.
 Thickness : 0.9/1.1 mm.

Advantages

Comfort

The glove is made from suede leather and is thus naturally flexible. The water repellent treatment makes the glove outstandingly comfortable. Its Thinsulate® lining lets the skin breathe, does not absorb humidity, is ultra lightweight and comfortable. Elasticated at the wrist, the glove offers added support.

Resistance

Its Thinsulate® lining provides excellent protection against the cold. Its US assembly ensures a longer life while reducing the number of seams.

Safety

The glove's elasticated fastening and seams at the back reduce thermal exchange.
