

TRICONYL FIT

Characteristics

100 % polyamide knitted glove.
White colour.
Gauge 13.
Length : 24 cm.

Advantages

Comfort

The knitting technique helps to obtain a glove that conforms snugly to the hand and good dexterity. The glove offers maximum comfort and added sturdiness.

Non pilling, the polyamide fabric is suitable for the agrifood industry as well as for precision work.

The tight knit (gauge 13) gives the glove perfect support, limits the penetration of dirt and offers a good touch.

Hygiene

Its white colour enhances the glove's hygiene and cleanliness.
