

SOFRACOLD

Characteristics

Polypropylene/Lycra knitted glove.
 Colour: blue.
 Gauge 13: light.

Advantages

COMFORT

The knitting technique helps to obtain a glove that conforms snugly to the hand.

The tight knit (gauge 13) gives the glove perfect support, limits the penetration of dirt and offers a good touch.

SAFETY

The polypropylene/lycra thread offers outstanding protection against the cold, particularly as an underglove.

HYGIENE

Its blue colour makes the glove more soilproof.
