

**GENERAL DATA**

Family : Footwear
Range : Workboots
Business Countries
EMEA

Product Use :

Safety Shoes for Professional Use.

Rugged outside and comfortable inside

Professions :

Construction managements

Building and finishing craftsmen

Agriculture, Gardening and forestry

Sisters Datasheets :

6201017 - EURO HIKER BLACK

PRODUCT ADVANTAGES

Feature :

Premium oiled leather upper
Ankle padding
Nylex moisture management lining
Gusseted tongue
Anatomically contoured & removable foot bed
Midsole features shock absorption EVA
Cemented sole construction & Timberland PRO® Nitrile outsole

Benefit :

Premium oiled leather upper minimizes break-in time
Comfort engineered ankle padding
Nylex moisture management lining keeps feet dry
Gusseted tongue keeps out dirt & debris
Anatomically contoured & removable foot bed decreases foot fatigue & provides easy care
Midsole features shock absorption EVA offering lightness & flexibility to the shoes
Cemented sole construction & Timberland PRO® Nitrile outsole ensures:
Slip resistance
Heat resistance up to 300°C
High resistance to fuel oil
Excellent shock absorption
Abrasion resistance
Flexing resistance

TECHNICAL DESCRIPTION

Description :

Premium oiled leather upper minimizes break-in time
Comfort engineered ankle padding
Nylex moisture management lining keeps feet dry
Gusseted tongue keeps out dirt & debris
Steel toe cap
Anatomically contoured & removable foot bed decreases foot fatigue & provides easy care
Cemented sole construction & Timberland PRO® Nitrile outsole ensures:
Slip resistance
Heat resistance up to 300°C
High resistance to fuel oil
Excellent shock absorption
Abrasion resistance
Flexing resistance

Sizes :

UK sizes: 6-12 EU sizes: 40-47

Color :

Pictos

ADDITIONAL INFORMATION

Life Cycle :

If the footwear is supplied with a part of, or the whole sole unit made of polyurethane:

We advise that the footwear should be used in the limit of 3 years following the manufacturing date, which figures on the footwear. After this time limit, certain factors such as : exposure to sunlight, hydrometry, temperature changes, could cause a modification in the structure of the material, which would no longer maintain the same performance levels with regards to the requirements defined in the European Directive 89.686 CEE.

If the footwear is supplied with a sole unit made from a material other than polyurethane:

We advise that the footwear should be used in the limit of 5 years following the manufacturing date, which figures on the footwear.

Storage Information :

Footwear should be stored in their original packaging, kept in a controlled stock area, not subject to rapid changes in temperature or humidity levels.

Care Instruction :

After use leave your footwear to dry in an aired place away from heat.

Remove any excess dust or dirt with a brush.

Remove any marks using a damp cloth and soap if necessary.

Finally polish any grain or pigmented leathers using a commercially available shoe care product.

CONFORMITY AND CERTIFICATION

EC Category PPE* : Category II

Standards :

EN ISO 20345 / EN ISO 20345-SB

European Directives :

89/686/EEC

Quality Assurance :

ISO 9001 / 2000
