

Dyflex[®] Blue

Dyflex[®] Blue is a premium glove that combines tactility and protection, meaning you no longer have to compromise on user comfort, safety or productivity. The cut resistant liner is super-lightweight and flexible, offering optimum comfort and dexterity to the user. Combine this with a microfoam nitrile palm coating and you have a product with excellent handling performance. The microfoam coating is especially proficient in wet or oily environments as it serves to channel liquids away from the glove surface to provide a safe and secure grip. It is also highly resilient which allows for precision handling. With its excellent abrasion and tear resistance, luxurious comfort and liquid repellent properties, you are assured of yet another benchmark product from Polyco.

Typically used for:

- Assembling Sharp Parts & Components
- Engineering • Automotive Engineering
